Themed Class Plans
Control Distance

About
The Practice Station Activity has been built to provide an engaging practice element to your class and a themed class focus.

Equipment Needed

- 12 cones
- Golf balls

How to Practice

- Set this activity up with 3 different sized boxes (10, 20 yards and 30 yards) from the learner.
- The learner should practice chipping the ball at different distances using the same club, by varying the speed of the swing.
- Encourage them to start by controlling the length of the stroke, similarly to how they learnt to control the length of the stroke using a putter, and then gradually increase the length of the stroke and speed of the stroke to ball further.
- This practice is learnt using the same club. e.g. a 7 iron would be best to lower lofted club.

Technical Learning Objectives

- This activity will help the learner to understand the importance of a shot based on the speed of the stroke.
- This activity will help the learner to gain confidence around the green by becoming consistent with one particular type of club.

GAM
GOLF DEVELOPMENT

Perfect Posture

Equipment Needed

- 7 iron and Driver
- Golf Balls

How to Practice

- Demonstrate the differences between the posture for a 7 iron and a Driver
- Highlight how an athletic posture will help the learners to generate more speed and prevent injury
- Make learners aware that practicing for prolonged periods of time may result in a overuse injuries, advise short, regular practice sessions

Technical Link

- This activity will help the learner to stike the ball more consistently and with more speed

Clubface Contact

Equipment Needed

- Impact Tape
- Driver

How to Play

- A learner starts by attempting to strike the ball using a club that has impact tape on the face
- After each shot they should check to see where the ball was struck on the face
- The learner should try to deliberately strike the ball using the toe of the club and the heel of the club to build awareness of what it feels like when the ball is struck using different parts of the club face

Progression Ideas

- Challenge the learner to strike a particular part of the club face deliberately
- Draw on the face tape to indicate a smaller target that the learner has to try to hit

Get Some Stability

Equipment Needed

- Tees
- Driver
- Golf Balls

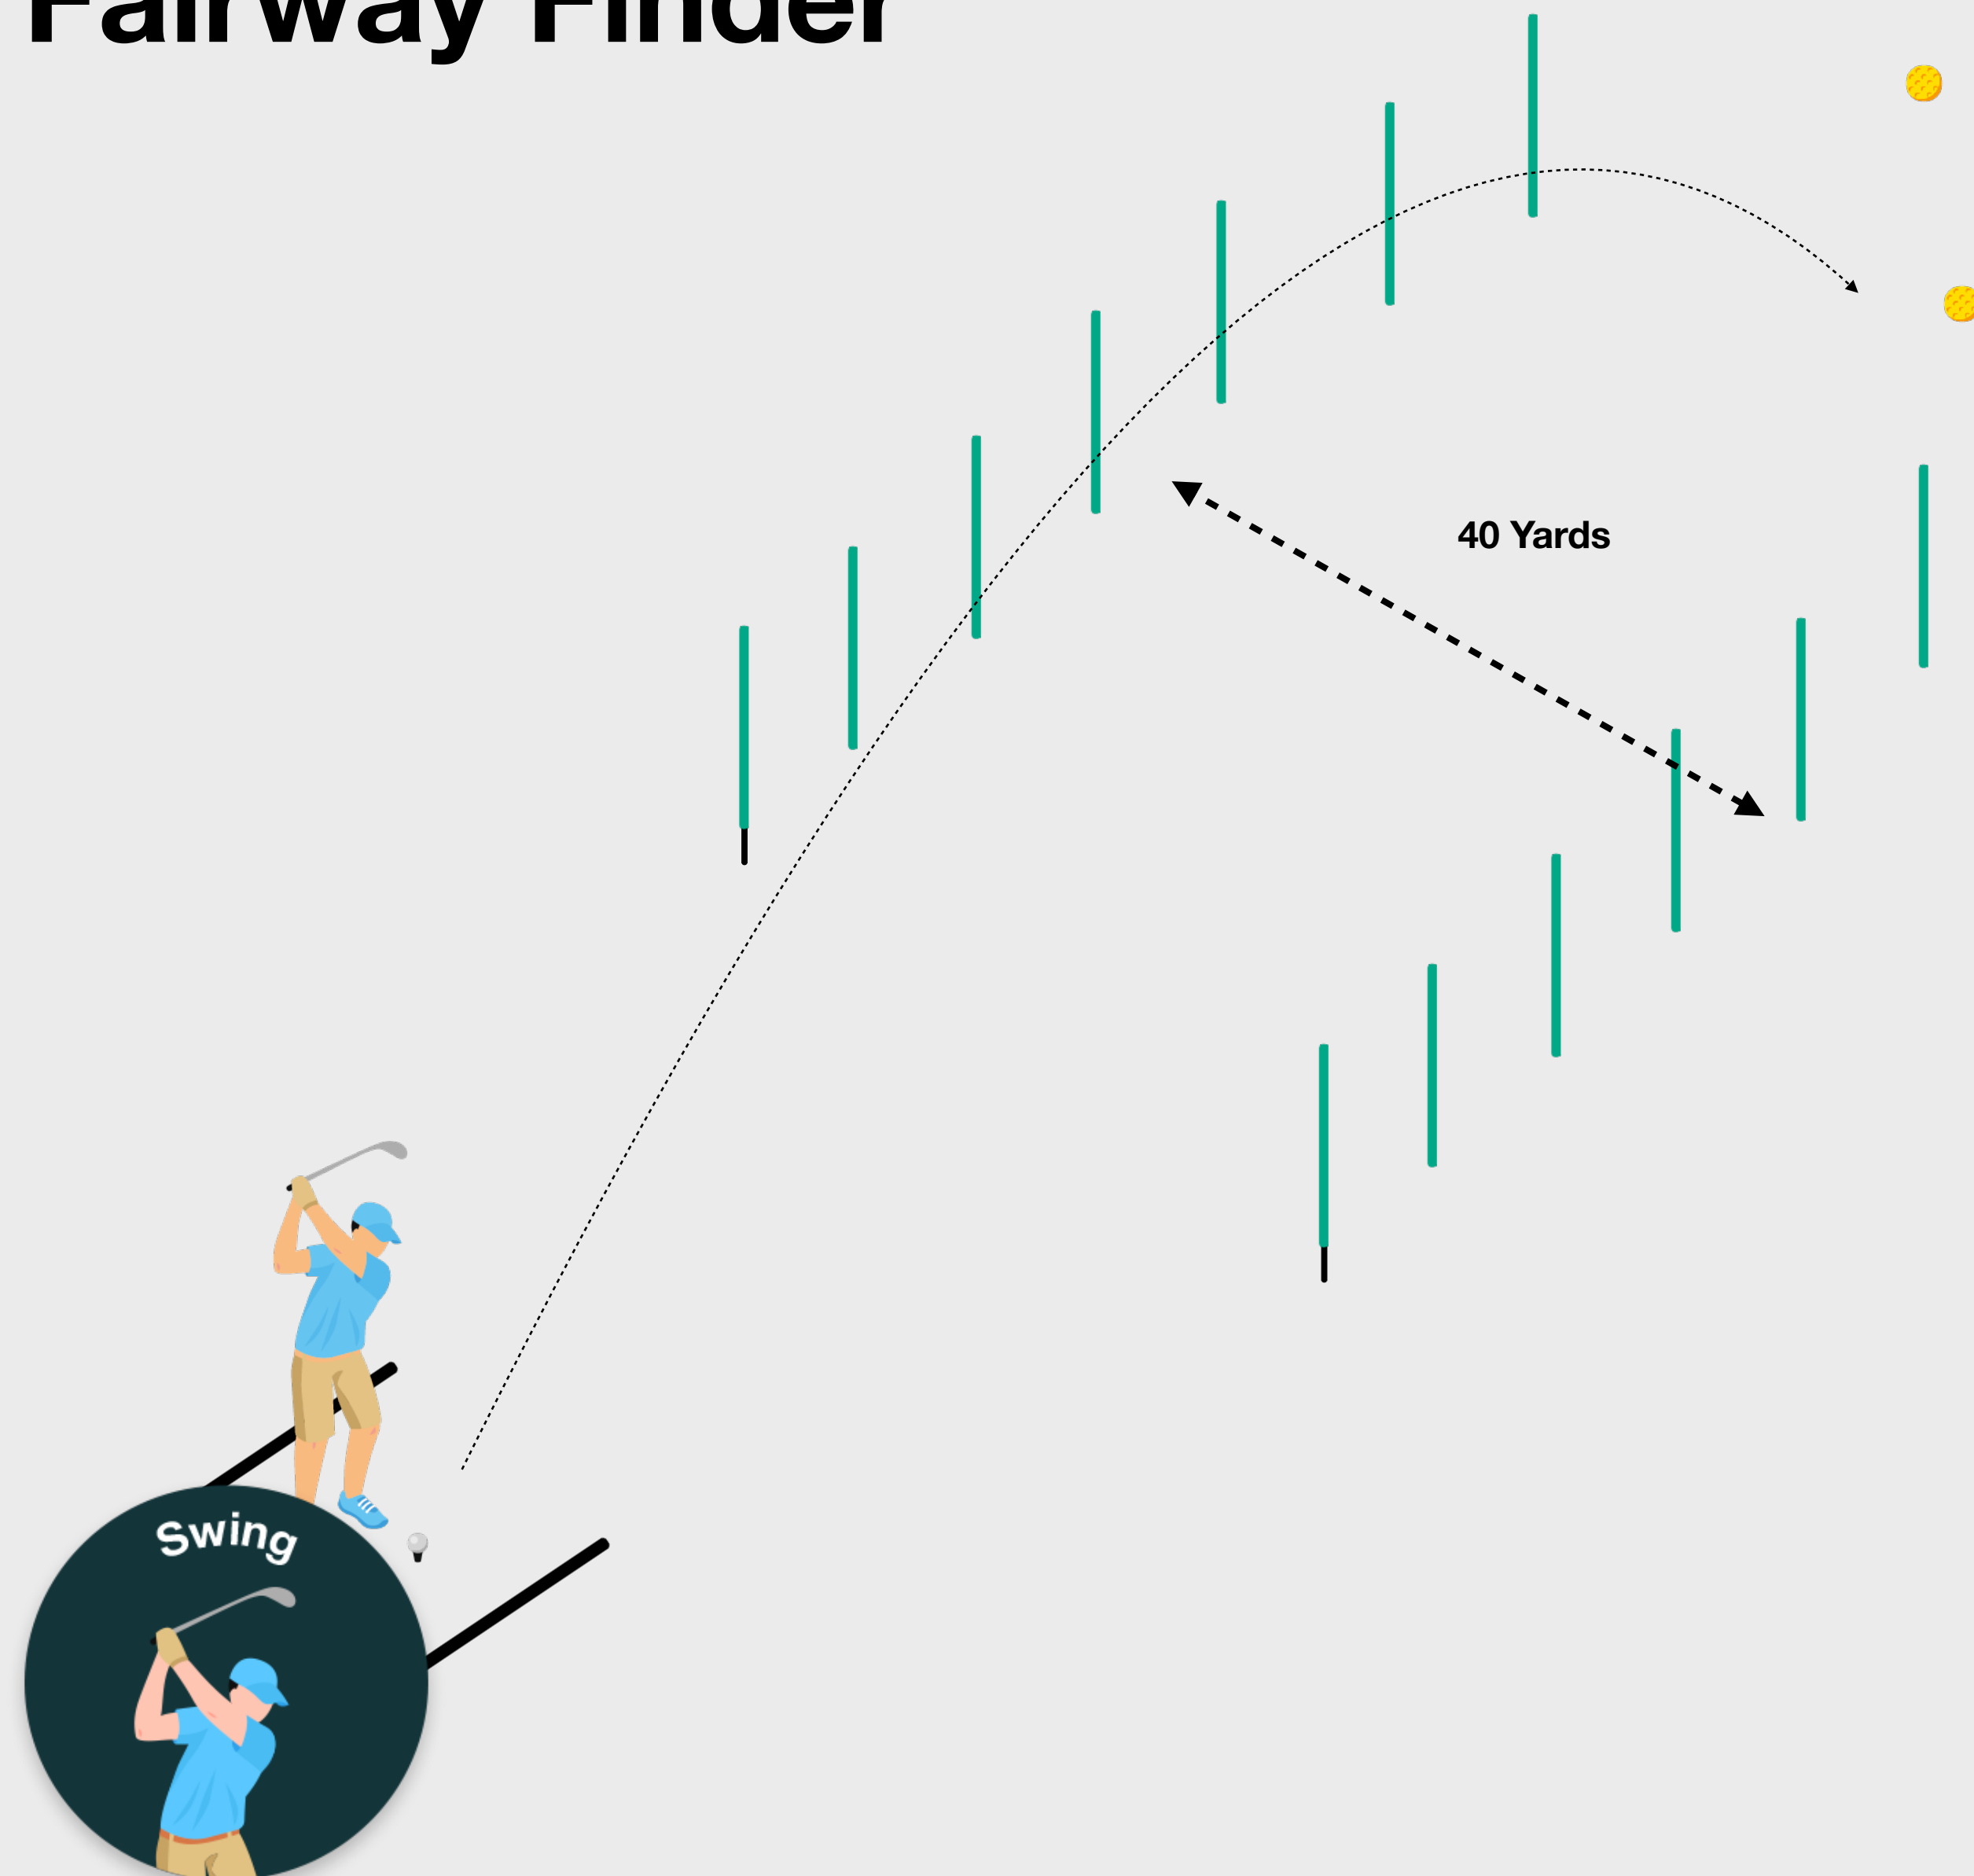

How to Practice

- Ask the learners to widen their stance for shots with the driver
- The stance should be slightly wider than the width of the students shoulders
- Demonstrate to the students how widening and narrowing the stance will effect balance and consistency
- Use an alignment stick from the each armpit so the student can visualise the width of the feet reparative to each shoulder

Technical Link

- Outline to the student that it will give them a more stable platform over which they can turn your upper body.
- It will encourages the hips to stay level throughout the swing
- It will Lowers their centre of gravity so playing in the wind is easier and are less likely to get blown off balance

Fairway Finder

Equipment Needed

- Driving range
- Alignment sticks, cones or other targets
- Golf balls

How to Practice

- Set up a fairway on the driving range using existing targets or use cones or alignment sticks
- Ask learners to hit golf balls and try and hit the fairway using their stock shot. This can be a fairway wood
- Ask the learners to hit 10 shot and see how many out of 10 they can hit the fairway

Technical Link

- By having a visual target on the driving range it focuses the learners minds onto what is required for a stock shot
- It shows them what an average fairway width of roughly 40 yards looks like

Learning the Game

Due to the limitation on time and also the recommendation to get practicing using the prescribed games and activities, we recommend you explore the following to supplement what is being delivered in Themed Classes. However it is at your discretion to add further information and you should also react to any questions or situations that arise.

- **Strategy and Management**

- Help the learner to develop a strategy for how to play a golf hole.
- Identify potential hazards and risks and develop strategies to mitigate this. Allow the learner to manage a golf hole and play to their strengths.
- Allow the group to experience some different scoring formats. Introduce matchplay, strokeplay, stableford.
- Highlight the importance of understanding their own game and which areas of the game they need to improve in order to improve their score.

Whole Golfer

Due to the limitation on time and also the recommendation to get practicing using the prescribed games and activities as the primary focus, we recommend you explore the following to supplement what is being delivered in Themed Classes briefly. You can also further explore this during the class using the variety of games and activities:

- **Pre shot routine**

- Introduce learners to the importance of a pre shot routine. Getting into the correct frame of mind for the shot, knowing that they are giving themselves the best chance to achieve a good outcome.
- The pre shot routine shouldn't be over complicated for a learner, and should include just one or two practice swings. Suggested content would include; thinking about the shot, choosing the appropriate club, rehearsing the shot, aiming and executing the shot.

Mastering the Game Challenges

Driver Challenge

The Challenge

To complete the Step 2 Challenge the learner needs to demonstrate the ability to hit 3 out of 5 shots in the air and a minimum carry distance of 75 yards.

To complete the challenge, the learner doesn't need to demonstrate control over direction.

What should the Learner do next?

After attempting the challenge, the learner should:

- Log in to the GLF.Connect App
- If they complete the challenge, mark it as complete in the Challenge Section

Driver Challenge

	Yardages	Target Gate
Driver Distances <i>(Where the ball comes to rest)</i>	125	25 yard wide target gate
	150	30 yard wide target gate
	175	35 yard wide target gate
	200	40 yard wide target gate

The Challenge

To complete the Step 3 Challenge the learner needs to demonstrate the ability to hit 2 out of 5 shots to travel through and come to rest between the target gate at the learners approximate driver total distance (Minimum of 125 yards)

What should the Learner do next?

After attempting the challenge, the learner should:

- Log in to the GLF.Connect App
- If they complete the challenge, mark it as complete in the Challenge Section
