

Step 1 - Scheduling and Planning

Please find listed below the recommended actions that you need to take during this step of implementation:

Assess Facility Access

Ensure you assess access to practice facilities at your venue and discuss the program with your management team. Remember you will need access to a driving range, short game area and putting green to be able to run all of the Skills Pathway programs.

Decide on the Skills Pathway Program Type

Decide which of the Skills Pathway programs you are going to offer from the three types, Become a Driving Wizard, Become a Short Game Wizard and Become a Putting Wizard.

Decide on the Program Level Dates

The Skills Pathway Program consists of three skills and three levels for each skill. We recommend you schedule your program a year ahead of time, making sure there are regular starting points throughout the year for each skill and level depending on the Skills Pathway program you decide to run.

Price your Skills Pathway Program

Decide on the price of your Skills Pathway program. You can use our handy calculator within the Skills Pathway page, but you need to consider if your price includes other chargeable elements at your venue.

Schedule your Skills Pathway

You are now ready to schedule your Skills Pathway program on the GLF. Connect system. When doing this, make sure you utilise the Support Video within the Skills Pathway page.
