

Step 1 - Scheduling and Planning

Please find listed below the recommended actions that you need to take during this step of implementation:

Assess Facility Access

Ensure you assess access to practice facilities at your venue and discuss the program with your management team.

Decide on the Practice Club Type

Decide which of the Practice Clubs you are going to offer. You may want to offer a specific practice club for those on the LTPG Program, practice clubs targeted at your Coaching Plan students only, focussing on specific skills or banded based on the scoring goals. You may also decide to offer a single practice open to all within your programs.

Decide on the Size of your Practice Clubs

Decide on the number of places that are available within your Practice Club. You should only offer 12 places for each coach that can deliver your Practice Club.

Decide the Practice Club Days

Decide on the specific day of your Practice Club and consider how these make connect to other adult programming opportunities you have available. It is vital that practice clubs supplement other programming. We also recommend schedule practice clubs on consistent day and time throughout your program year.

Price your Practice Club

Decide on the price of your Practice Club. You should consider if you are offering an incentives on the practice club price such as discounts rates for those on the LTPG program and any other chargeable elements at your venue.

Decide if your Practice Club is Open to All

You should decide if your practice clubs are added value element to those students currently enrolled on your programming or if you want to open up practice clubs to new students.

Schedule your Practice Clubs

You are now ready to schedule your Practice Club on the GLF. Connect system. When doing this, make sure you utilize the Support Video within the Practice Clubs page.
