

Step 3 - Marketing Distribution

Please find listed below the recommended actions that you need to take during this step of implementation:

Make Sure your Stage One or Two Classes are Live on GLF. Connect and Check your Links

Before pushing the button on your programs, make sure that they are live on the booking system and check your short links from the perspective of a student if you have agreed with the school to handle the booking process.

Distribute your Stage One and Two Letters

At the end of the Taster Class or final week of the Stage One program, you should ensure each child receives the letter informing them about the next stage and how to book.
